GitHub: https://github.com/Shubham261104 Mobile: +91-8084111304

SKILLS

Languages: C++,C, Python, JavaScript, Java
Frameworks: HTML ,CSS, Tailwind CSS, React.js, Node.js, Express.js
Database: MySQL, MongoDB
Tools/Platforms: Git, GitHub, Linux
Soft Skills: Problem-Solving, Team Collaboration, Adaptability

PROJECTS

Training Management System |Link Dec' 25

- Developed SkillBridge, a training management system that allows users to register, log in, browse skill-based courses, enroll, and track learning progress.
- Implemented admin-side CRUD operations to manage users and training content efficiently.
- Ensured secure database storage with a responsive and user-friendly interface for smooth and reliable system usage.

Tech Stack: MERN Stack

Virtual Memory Optimization | Link Apr' 25

- Built a virtual memory management simulator in Python that implements key page replacement algorithms such as Least Recently Used (LRU) and Optimal, demonstrating core OS memory handling concepts.
- Integrated an interactive GUI using Qt to allow users to input parameters, visualize memory frame states, and monitor page faults in real time.
- Simulated and visualized paging/segmentation behavior, improving understanding of memory allocation, page faults, and algorithm efficiency in virtual memory systems.

Tech Stack: Python

Production-Planner | Link Apr' 25

- Created a full-stack production planning web app using PHP and MySQL for scheduling and job tracking.
- Introduced user authentication, dynamic job assignment, and database-driven scheduling using a structured db.sql schema.
- Designed intuitive and responsive UI pages (pages/) to streamline operations, improving workflow visibility and reducing planning overhead.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

TRAINING

Fundamental Of Data Structure and Algorithm |Certificate Jun' 25- Jul' 25

Lovely Professional University| Jalandhar, IN

- Gained hands-on experience with core data structures including arrays, linked lists, stacks, queues, trees, graphs, and hash tables.
- Implemented key algorithmic paradigms such as divide & conquer, greedy techniques, and dynamic programming using C++ and Python.
- Applied DSA concepts to solve real-world problems, optimize code efficiency, and improve time–space complexity understanding.

CERTIFICATES

- Build Generative AI Apps and Solutions with No-Code Tools| Udemy | **Certificate** Aug'25
- Cloud Computing | NPTEL | **Certificate** Apr'25
- The Bits and Bytes of Computer Networking | Google | **Certificate** Sep' 24
- Responsive Web Design by freeCodeCamp | FreeCodeCamp | **Certificate** Oct'23

ACHIEVEMENTS

- 50 Day Streak on LeetCode Dec' 25
- Solved 250+ coding problems across different platforms (Leetcode,GFG, HackerRank, etc.) Nov' 25
- Selected as Campus Brand Ambassador in Acmegrade Pvt Ltd Nov' 24

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering | CGPA : 6.84 Since Aug' 23
- **Narayan High School** Aurangabad, Bihar
  Intermediate | PERCENTAGE : 75% Apr' 21-Mar' 23
- **Vivekanand Mission School** Aurangabad, Bihar
  Matriculation | PERCENTAGE : 75% Apr' 20-Mar' 21
